

Leave the Paper Behind

System Requirements

The following table is for reference purposes only; exceptions may apply based on your current environment. Please contact Primafact to discuss your system requirements in greater detail.

	Workstation ^{1,2}	Scanstation/OCR Station ^{1,2}	Server ³
Operating System	Windows XP, Service Pack 3 Windows Vista Windows 7 Windows 8	Windows XP, Service Pack 3 Windows Vista Windows 7 Windows 8	Windows Server 2003 SP2 Windows SBS 2003 Windows Server 2008 R2 Windows SBS 2011 Windows Server 2012
CPU	Intel P4, Core Duo, Core 2 series or better	Intel Core 2 Duo or better	Intel Core 2 Quad, Xeon, or better
RAM	1 GB or higher	2 GB or higher	2 GB or higher
Monitor	19" or greater recommended	19" or greater recommended	N/A

¹ Home editions are not supported. ² Both 32 bit (x86) and 64 bit (x64) installations are supported. ³ Primafact requires Microsoft SQL Server.

Compatible SQL Server Versions:	SQL Server 2005 ⁴ SQL Server 2008 R2 ⁵ SQL Server 2012 ⁵	Compatible Microsoft Office Versions:	Microsoft Office 2007 Microsoft Office 2010 Microsoft Office 2013
--	---	--	---

⁴ SQL Server Express 2005 is limited to approximately 250,000 pages.

⁵ SQL Server Express 2008 R2 and SQL Server Express 2012 are limited to approximately 600,000 pages.

Network

Primafact requires a domain. Workgroups are not supported.

Scanner Hardware

Primafact will work with desktop and network scanners, as well as multi-function copiers. Desktop scanners must be TWAIN compliant.

Virtual Environments

Primafact will run in a Windows Virtual environment provided adequate hardware resources are available to the virtual machine.

Storage Requirements

We recommend estimating 50 gigabyte (GB) for every 200 banker's boxes of documents to be scanned. For example, 125 GB of server storage would accommodate about 500 banker's boxes.

Estimated requirements, assuming a banker's box contains 1,500 letter size black and white pages scanned at 300 dpi.

Banker's Boxes	Estimated No. of Pages	GB Storage Required
100	150,000	25
200	300,000	50
500	750,000	125
1,000	1,500,000	250
5,000	7,500,000	1250
10,000	15,000,000	2500

Backup Systems: As with any other mission-critical software, your firm will need to be certain the appropriate systems are in place to ensure uninterrupted server operation, daily backups, and disaster recovery.
