

Leave the Paper Behind

System Requirements

The following table is for reference purposes only; exceptions may apply based on your current environment. Please contact Primafact to discuss your system requirements in greater detail.

	Workstation	Scanstation/OCR Station	Server
Operating System	Windows XP with Service Pack 3, 32 & 64 Bit Windows Vista 32 & 64 Bit Windows 7, 32 & 64 Bit	Windows XP with Service Pack 3, 32 & 64 Bit Windows Vista 32 & 64 Bit Windows 7, 32 & 64 Bit	Windows Small Business Server 2003 or 2008† Windows Server 2003 with Service Pack 2† Windows Server 2008†
CPU	Intel P4, Core Duo, Core 2 series or better	Intel Core 2 Duo or better	Intel Core 2 Quad, Xeon, or better
RAM	1 GB or higher	2 GB or higher	2 GB or higher
Monitor	19" or greater recommended	19" or greater recommended	N/A

⌘ Home editions are not supported.

† Primafact requires Microsoft SQL Server or SBS Premium edition.

Scanner Hardware

Primafact will work with desktop and network scanners, as well as multi-function copiers. Desktop scanners must be TWAIN compliant.

Storage Requirements

We recommend estimating 50 gigabyte (GB) for every 200 banker's boxes of documents to be scanned. For example, 125 GB of server storage would accommodate about 500 banker's boxes.

Estimated requirements, assuming a banker's box contains 1,500 letter size black and white pages scanned at 300 dpi.

Banker's Boxes	Estimated No. of Pages	GB Storage Required
100	150,000	25
200	300,000	50
500	750,000	125
1,000	1,500,000	250
5,000	7,500,000	1250
10,000	15,000,000	2500

Backup Systems: As with any other mission-critical software, your firm will need to be certain the appropriate systems are in place to ensure uninterrupted server operation, daily backups, and disaster recovery.
